Contest Report: none

If you have trouble navigating the new CORES system, you can contact the FCC directly at 877-480-3201 (option 1)

We received an email from Victor 4S7VK asking if there is anyone interested in taking over the Sri Lanka project. We have sent over 50 donations of rigs and antennas over the years and John NZ9Z (and wife Cindy) have been instrumental in this project.

Other topics of discussion included the lack of traffic on local repeaters and how the hobby has changed over the years. Anne KC9YL asked if we should consider a different format for our meetings – ZOOM – or a different day of the week? FYI there is an informal group of hams that meets at 8:30 a.m. at the Machine Shed in Appleton on the last Wednesday of every month. No reservations, necessary, just show up!

The meeting adjourned at 11:25 a.m.
